The University of California, Irvine Foundation ("UCI Foundation") (Tax ID 95-2540117) and the Regents of the University of California (Tax ID 95-2226406) are both nonprofit, public benefit corporations. The UCI Foundation is organized for the purpose of encouraging voluntary private gifts, trusts, and bequests for the benefit of the University of California, Irvine ("UCI") campus. Responsibility for the governance of the Foundation, including investments, is vested in its Board of Trustees. The Regents of the University of California is organized for the purpose of administering a public trust for the University of California by a 26-member board. The form and composition of this Corporation, its duties, and its powers are prescribed by the provisions of Section 9 of Article IX of the Constitution of the State of California.

It is the policy of the University of California, Irvine and the UCI Foundation that a modest portion of gifts and/or the income there from is used to defray the cost of raising and administering the funds.

To assist you and your tax advisors in determining the charitable tax deduction for your gift of publicly traded securities, we are providing the following information from the federal tax regulations concerning the rules for establishing the date and value of your gift.

Date of Gift: Ordinarily, a contribution is made at the time delivery is effected. If a taxpayer unconditionally delivers (or mails) a properly endorsed stock certificate to a charitable donee or donee's agent, the gift is completed on the date of delivery (or mailing, provided that such certificate is received in the ordinary course of the mails). If the donor delivers the certificate to his bank or broker as the donor's agent, or to the issuing corporation or its agent, for transfer into the name of the donee, the gift is completed on the date the stock is transferred on the books of the corporation. (Section 1.170-1 of the Federal Income Tax Regulations)

Value of Stocks & Bonds: In general, the mean between the highest and lowest quoted selling prices on the date of the gift is the fair market value per share or bond. If there were no sales on the date of the gift, but there were sales on the dates within a reasonable period both before and after the date of the gift, the fair market value is determined by taking a weighted average of the means between the highest and lowest sales on those dates. The UCI Foundation uses this method to calculate the contribution value listed on your receipt.

If your gift entitles you to purchase tickets in priority seating areas at UCI athletic events, only 80% of the total amount of your net charitable contribution is tax deductible under Internal Revenue Code 170(1). The fair market value of additional benefits received (if any) in connection with this gift is not tax deductible.

We encourage you to always consult with your tax advisor and/or tax preparer to determine the value of your tax deduction.
