APPLICATION ID: 2406688

Dear Roy:

It is a great pleasure to offer you admission to Eleanor Roosevelt College at the University of California, San Diego, for Fall 2006. On behalf of Chancellor Marye Anne Fox, Provost Ann Craig, and the campus community, I welcome you. We are extremely proud of the caliber of students who apply to UCSD, and are equally proud of the educational, cultural and extracurricular opportunities we provide to those who enroll.

Please go to <http://myapplication.ucsd.edu> to access your Admission Notification. If you are a recipient of a scholarship or other financial aid, you may access your preliminary award notice. Reserve your place at UCSD by submitting the electronic Statement of Legal Residency (SLR) and electronic or paper Statement of Intent to Register (SIR) by June 1, 2006. You can also link to Eleanor Roosevelt College and find additional information about your college. If our office determines that you have not visited the "MyApplication" Web site within 10 days, we will contact you.

All entering transfer students are admitted as pre-majors in the following disciplines: Bioengineering; Pre-Medical, Engineering Physics, Human Development, Interdisciplinary Computing and the Arts (Music or Visual Arts), Literature/Writing, Mathematics-Computer Science, and Visual Arts Media with Computing Emphasis. If you selected any Engineering major (open or impacted) within the Jacobs School of Engineering, additional screening of major preparation requirements for admission to these majors is being conducted by the academic department and you will be notified in writing of the decision after receipt of this letter. Decisions made by the academic departments will NOT affect your admission to UCSD.

This admission decision is based on the commendable academic record reported on your application and is subject to verification as outlined in the online Contract for Provisional Admission. Please review the contract carefully so that you understand the terms and conditions of your admission offer.

We encourage you to explore our beautiful campus and get acquainted with UCSD's exceptional resources. An ideal time to visit is Saturday, May 20, for Transfer Admit Day. Your online Admission Guide will give you details about making your reservation.

We are confident that you will thrive at UCSD and that this university will be enriched by your presence. We look forward to welcoming you as a new student in the fall!

Sincerely,

Mae W. Brown, Assistant Vice Chancellor
Admissions and Enrollment Services
